HEALTHCARE ANALYST

MSBA Candidate and Chemistry graduate pursuing a career in healthcare analytics, combining a data science foundation with hands-on financial-operations and research experience. Skilled in Python, R, and Excel, with experience conducting statistical analysis, building data visualizations, and auditing high-volume operational data. A former research scholar and dedicated campus leader who pairs technical rigor with strong stakeholder communication, from reducing payroll processing errors for 1,300+ student employees to leading data-informed engagement initiatives for 100+ student nominees.

EDUCATION

Wake Forest University School of Business, Winston-Salem, NC

Master of Science in Business Analytics, May 2027

Washington and Lee University, Lexington, VA

Bachelor of Science in Chemistry – Minor in Data Science, May 2026

AREAS OF EXPERTISE

Data Visualization | Statistical Analysis | Team Leadership | Data Reporting | Data Storytelling | Organization | Data Analysis

Active Listening | Time Management | Analytical Problem-Solving | Project Management | Communication | Attention to Detail

Experimental Design | Cross-Functional Collaboration | Data Cleaning | Predictive Modeling | Business Analytics | Adaptable

TECHNICAL SKILLS

Programming Languages: Python, R, SQL (*Fall 2026*)

Predictive Modeling & Statistical Analysis: Linear Regression, Logistic Regression, Time Series Analysis

Google Cloud (GCP): Collaboratory

Microsoft Office Suite: Excel, Word, PowerPoint, Access, Teams

PROFESSIONAL EXPERIENCE

STUDENT EMPLOYMENT COORDINATOR | **W&L Office of Financial Aid** | Lexington, VA *Sep 2022 – Jun 2026*

- Processed and audited biweekly payroll and hiring records for 1,300+ student employees in Workday and PowerFAIDS and managed high-volume Student Employment inbox, resolving student and supervisor inquiries
- Maintained and validated employment records, correcting discrepancies to reduce processing errors and ensuring compliance with Federal Work-Study guidelines
- Selected to serve as the student member for the Director of Financial Aid Search Committee

LEADERSHIP EXPERIENCE

CO-CHAIR | **Leadership Excellence Awards Banquet Committee** | Lexington, VA *Sep 2022 – Jun 2026*

- Designed visual materials and floor plan for an awards banquet honoring 100+ student nominees and hosting 150 guests, managing logistics within a \$1,000 budget
- Oversaw a team of 12 to run outreach tabling events and coordinate nominations across 30 award categories
- Interpreted submission and participation data in Qualtrics to track engagement trends and collaborate with the university community to ensure all university groups were recognized and celebrated properly

SISTERHOOD DIRECTOR | **Chi Omega Fraternity- Xi Lambda** | Lexington, VA *Jan 2024 – Dec 2025*

- Directed sisterhood programming and community engagement initiatives for 120+ members over two years, managing a \$3,000 annual budget
- Planned and executed 5-6 major events per year, including launching the inaugural Moms Weekend

ANALYTICAL PROJECT EXPERIENCE

Observing Locomotion Patterns of *Metazygia wilfradae* in Light and Dark Conditions: Analyzed locomotion and circadian rhythm data from 30 spiders across 14 days (10,000+ observations) in Python. Created visualizations (Matplotlib/Seaborn) revealing circadian rhythms of 16–32 hours persisting independent of light exposure. 1 of 130 posters presented at Neuroscience 2023, Washington, D.C.
