BUSINESS & DATA ANALYTICS

MSBA Candidate and Chemistry graduate pursuing a career in analytics consulting, combining a data science foundation with hands-on analytics, operations, and research experience. Skilled in Python, R, SQL, Excel, Power BI, and Tableau, with experience building dashboards and statistical models and validating high-volume operational data. A campus leader who pairs technical rigor with strong stakeholder communication, from building a Power BI dashboard of 680+ student survey responses as a graduate assistant to chairing the Student Engagement Council for a 70-student MSBA cohort.

EDUCATION

Wake Forest University School of Business, Winston-Salem, NC
Master of Science in Business Analytics, *May 2027*

Washington and Lee University, Lexington, VA
Bachelor of Science in Chemistry – Minor in Data Science, *May 2026*

AREAS OF EXPERTISE

Machine Learning | Predictive Modeling | Statistical Analysis | Data Visualization | Data Cleaning | Data Validation | Auditing

Relational Databases | Dashboard Development | Data Storytelling | Data Ethics & Governance | Generative AI Validation

Client Engagement | Stakeholder Analysis | Executive Presentations | Cross-Functional Collaboration | Project Management

TECHNICAL SKILLS

Programming Languages: Python, SQL (PostgreSQL), R
Predictive Modeling & Statistical Analysis: Linear Regression, Logistic Regression, Time Series Analysis
Enterprise Systems & Tools: Tableau, Power BI, PostgreSQL, DBeaver, GitHub, VS Code, Claude Code
Microsoft Office Suite: Excel, Word, PowerPoint, Access, Teams

ANALYTICAL PROJECT EXPERIENCE

Observing Locomotion Patterns of Metazygia wilfradae in Light and Dark Conditions: Analyzed locomotion and circadian rhythm data from 30 spiders across 14 days (10,000+ observations) in Python**.** Created visualizations (Matplotlib/Seaborn) revealing circadian rhythms of 16–32 hours persisting independent of light **e**xposure**.** 1 of 130 posters presented at Neuroscience 2023, Washington, D.C.

Predicting Engineer Attrition Risk in an AI-Disrupted Workplace: Led a three-person team analyzing survey responses from 719 tech workers to model attrition risk under AI adoption**.** Built logistic regression models testing fear of AI replacement, burnout, and job satisfaction as predictors, identifying perceived AI risk as the significant driver**.** Delivered data-driven recommendations on AI rollout communication strategy to a simulated HR leadership panel as part of an undergraduate analytics course project.

PROFESSIONAL EXPERIENCE

GRADUATE ASSISTANT | **WFU Office of Leadership Engagement |** Winston-Salem, NC *Sep 2026 – Present*

- Built a Power BI dashboard from 682 survey responses by 597 students across 8+ feedback forms
- Designed a master response sheet keyed on verified student email so the dashboard refreshes automatically
- Automated the build of 6 standardized Google Forms using an AI-assisted Google Apps Script
- Plan student-leader programs, including the inaugural CliftonStrengths Lunch and Ignite! Emerging Leaders

STUDENT EMPLOYMENT COORDINATOR | **W&L Office of Financial Aid |** Lexington, VA *Sep 2022 – Jun 2026*

- Audited biweekly payroll and hiring records for 1,300+ student employees in Workday and PowerFAIDS
- Validated employment records, correcting discrepancies to ensure Federal Work-Study compliance

LEADERSHIP EXPERIENCE

CHAIR | **MSBA Student Engagement Council |** Winston-Salem, NC *Aug 2026 – Present*

- Lead a 9-member council planning events and programming for a 70-student MSBA cohort
- Planned a 3.5-hour fall retreat covering council expectations, budget, committees, and the event calendar
- Oversee cohort events from tailgates to trivia nights, coordinating RSVPs, vendors, budgets, and staffing
- Liaise with program leadership and the staff adviser to align initiatives and relay cohort feedback

CO-CHAIR | **Leadership Excellence Awards Banquet Committee |** Lexington, VA *Sep 2022 – Jun 2026*

- Oversaw a team of 12 to run outreach tabling events and coordinate nominations across 30 award categories
- Analyzed Qualtrics nomination and participation data to track engagement across 30 award categories
